

During this difficult and unprecedented time, we are all finding ourselves in the position of adjusting to a new reality. We all know firsthand the incredible, positive impact that rehabilitation providers have on lives. **Pro Sports Therapy** also realizes that providers and patients are facing challenges. **Physical Therapy is considered an essential service.**

Pro Sports Therapy CONTINUES TO REMAIN OPEN TO SERVE OUR PATIENTS. We are continuing to evaluate and treat patients that are able to come to our Westford or Waltham clinics. A TELEHEALTH protocol has been established to interact with patients unable to physically come in to the clinics.

Healthcare organizations and professionals across settings are now confronted with equally difficult challenges. With social distancing protocols and the obstacles that continue to arise, organizations are facing difficulty in maintaining continuity of care. Therefore, we are here to serve you. **Pro Sports Therapy** continues to institute the best means to keep you and our staff safe.

As part of our commitment, we have launched a series of solutions and resources to help reduce patient anxieties, ensure safety, and above all, deliver effective patient care, whether remotely or in-person. These solutions include all CDC recommended infection prevention within our facilities and Telehealth visits.

The team at **Pro Sports Therapy** is committed to doing our best to support you and the community during the COVID-19 pandemic. We are here to help.

As this critical situation continues to unfold, please reach out to us and let us know how **Pro Sports Therapy** can help you. We entered this crisis together, and we will get through it together. From all of us at **Pro Sports Therapy**, we remain committed to supporting you and to the shared mission of improving the lives of patients. **Please call our offices with any questions, Waltham: (781) 487 9944, Westford (978) 392 0483, email: info@prosportstherapy.net.**
